

 **Cleoni**<sup>®</sup>  
*decorative*

Szanowni Państwo!

Cleoni to polska marka, której nazwa może dziś stanowić synonim dążenia do odkrywania nowych, interesujących rozwiązań oświetleniowych. Dowodem tego są kolejne nasze kolekcje, które odzwierciedlają wartości dla nas najważniejsze, a mianowicie piękno, innowacyjność i użyteczność. To cechy, które przeplatają się na wszystkich etapach tworzenia naszych lamp i w każdym ich szczególe - począwszy od wyboru materiałów, poprzez projekt formy, a na produkcji kończąc. Wszystko po to, by móc zaoferować Państwu produkty ze wszech miar wyjątkowe i spełniające najwyższe wymagania - zarówno pod względem wykonania, jak i estetyki.

Wiemy, jak niezwykle istotną rolę w funkcjonowaniu człowieka pełni właściwe oświetlenie, a świadomość tego wzrasta w nas nieprzerwanie od 1998 roku, kiedy to powstała nasza firma. Od tego czasu proponujemy naszym klientom coraz lepsze rozwiązania i coraz bardziej innowacyjne lampy. Wykorzystujemy zaawansowane technologie i większość opraw naszej produkcji przystosowujemy do źródeł światła LED. Ze względu na ciągły rozwój technologii LED, zastrzegamy więc sobie prawo do zmiany rodzaju lub konfiguracji źródeł światła, aby zawsze były zgodne z najnowocześniejszymi standardami.

Prezentowane kolekcje są wynikiem naszych ostatnich pomysłów i odkryć, a wszelkie ich modyfikacje i aktualizacje będą publikowane na stronie [www.cleoni.pl](http://www.cleoni.pl) - bezpośrednio przy produkcji. Dlatego też zachęcamy Państwa do zapoznania się z niniejszym katalogiem oraz stroną internetową i poznanie efektów naszej pracy. Efektów z których jesteśmy prawdziwie dumni.

Miłej lektury!  
Zespół Cleoni

Ladies and Gentlemen!

Cleoni is a Polish brand whose name can still be a synonym of striving to discover new and interesting lighting solutions. We prove this by creating collections which reflect the values most important to us, namely: beauty, innovation and stability. These are features that are interwoven through all stages of the creative process and in each detail of the lamps - from the choice of materials, through the designing process, to production. All of this is for the purpose of being able to offer you products which are, by all means, unique, and meet the highest standards of requirement- both in terms of building and aesthetics.

We know how extremely important proper lighting is in human function, and our awareness of this has continued to grow since 1998, when our company was founded. Since that time, we have offered our customers more and more innovative and modern lamps. We use the most advanced technology and we have adjusted most of our luminaires to the LED light sources. Due to the continuous development of LED technology, we reserve the right to change the type or configuration of light sources in order to always comply with the latest standards.

Our current collections are the result of our most recent discoveries and ideas and all the modifications and updates will be available straight away on [www.cleoni.pl](http://www.cleoni.pl). Therefore, we encourage you to familiarize yourself with this folder and our website, and to get to know the results of our work. Results we are truly proud of.

We hope you enjoy reading!  
The Cleoni Team

## Oprawy z drewna

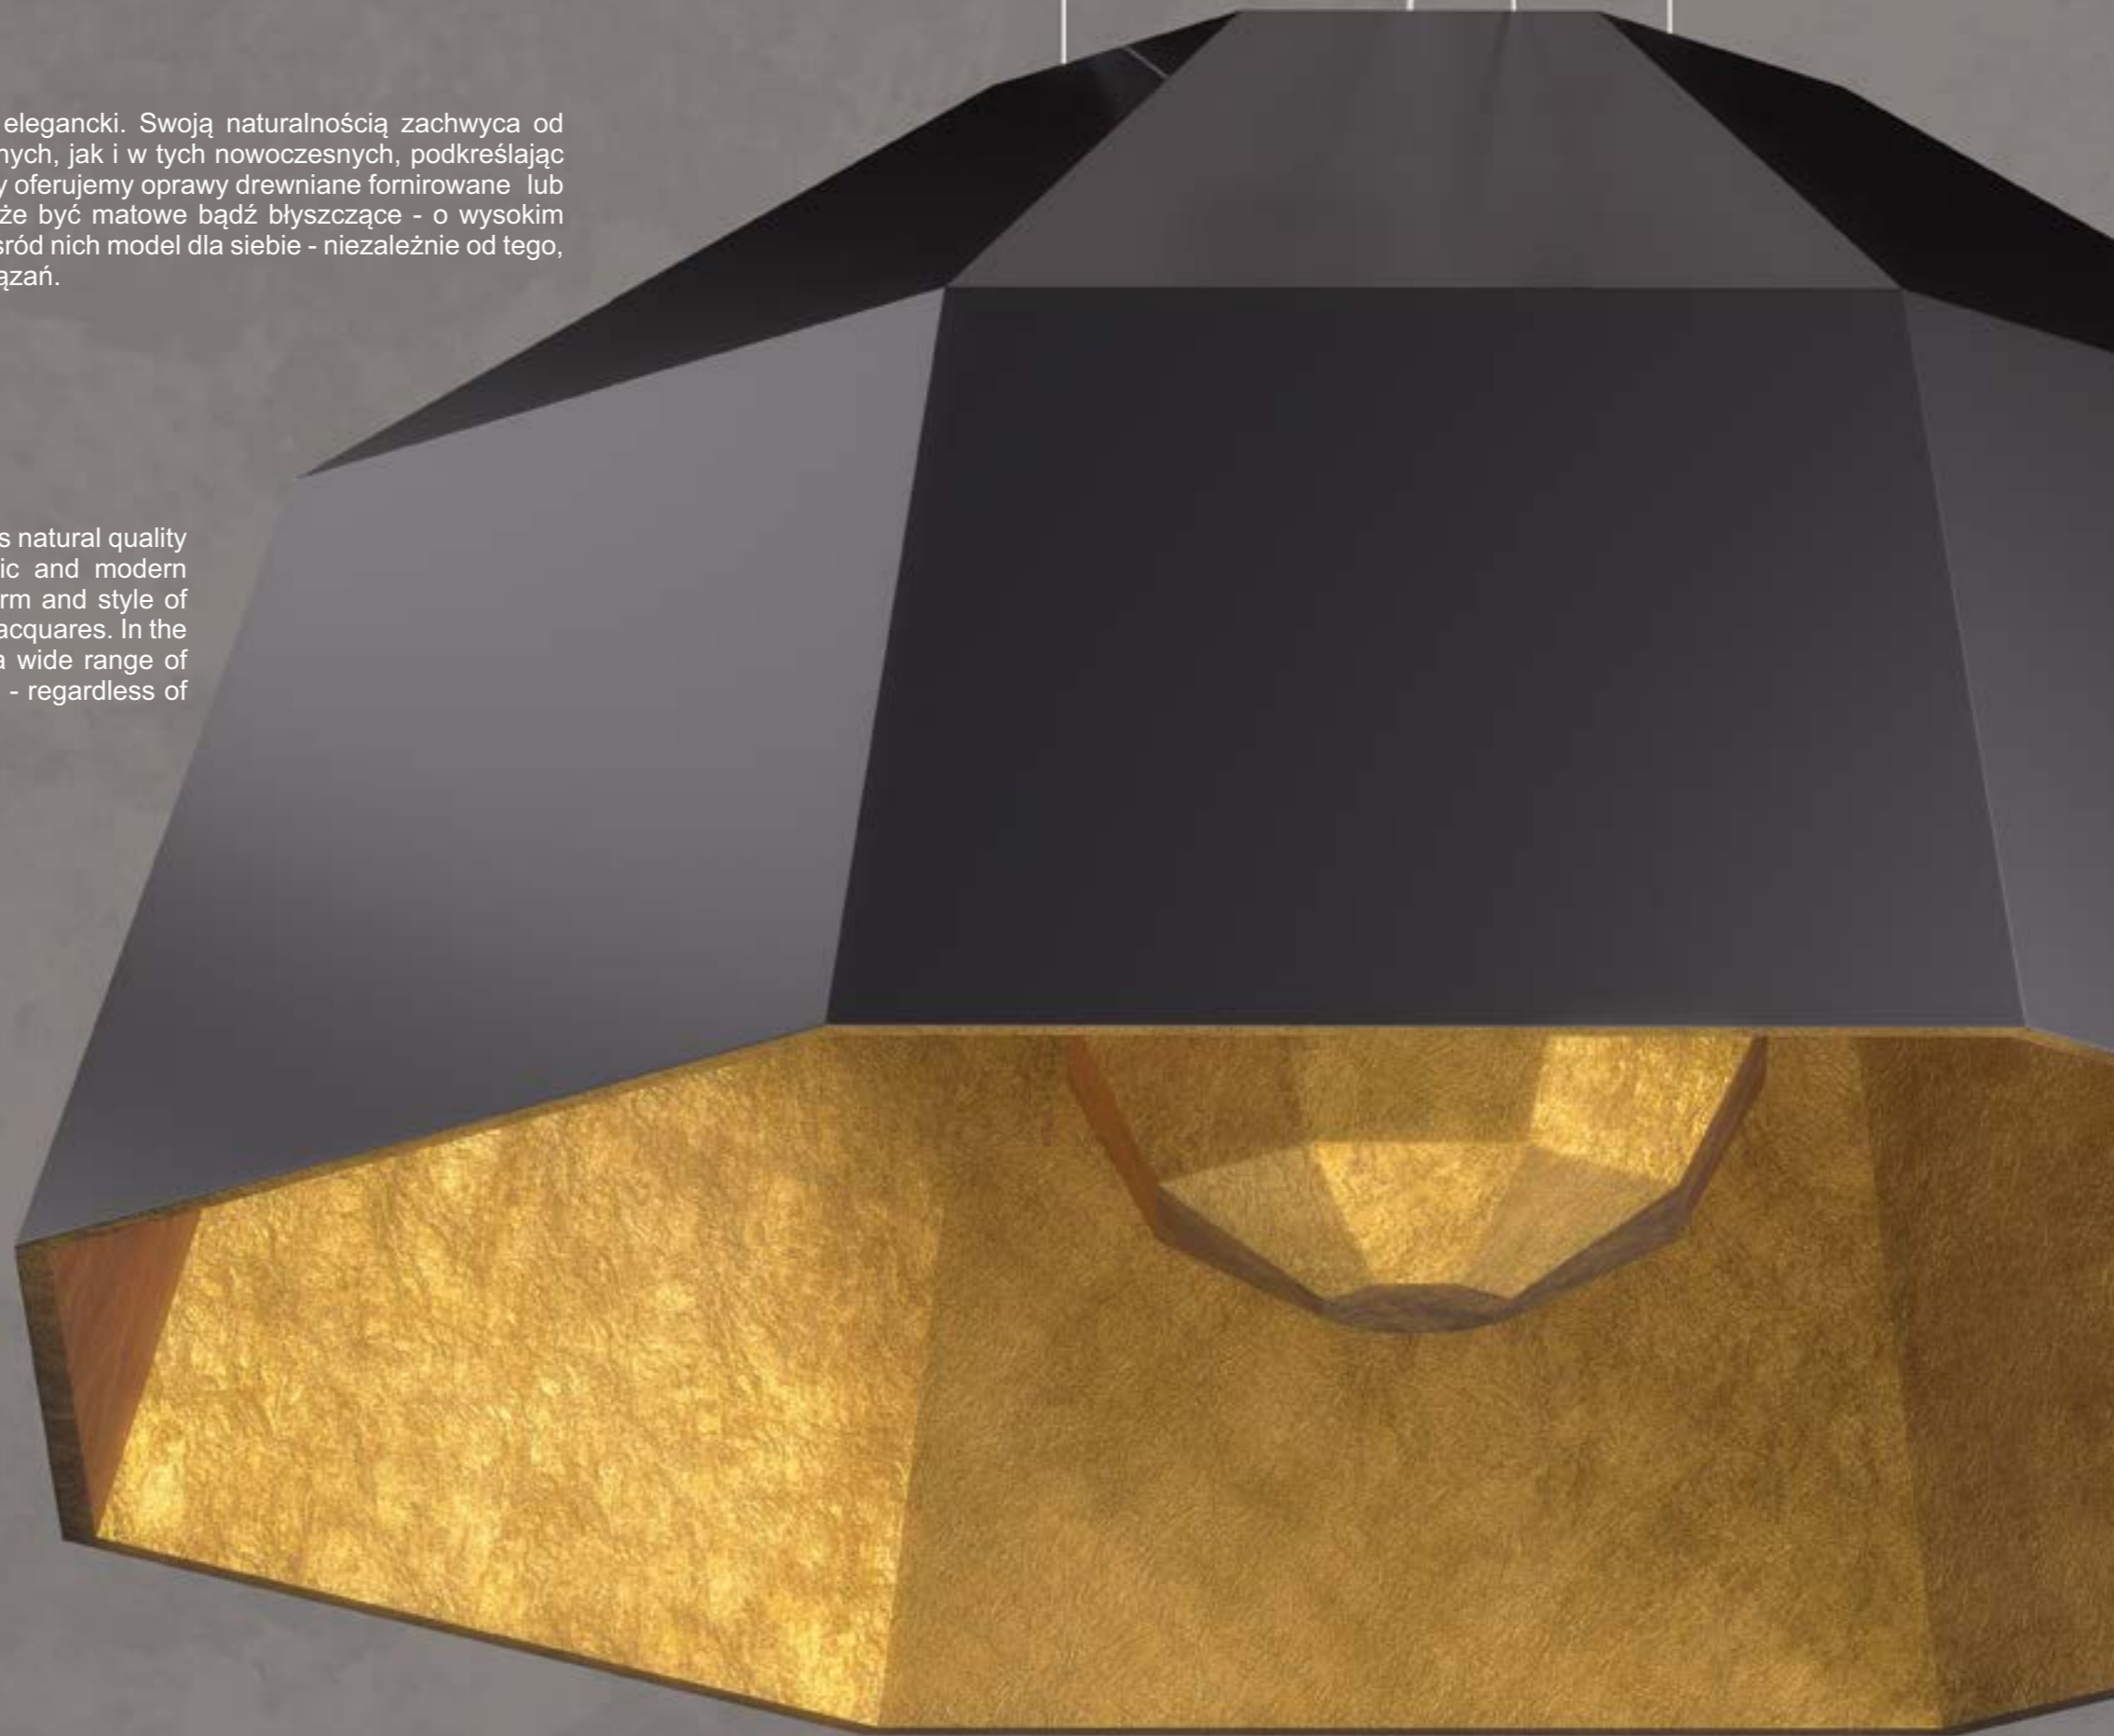

### Ponadczasowa klasyka

Drewno to materiał absolutnie uniwersalny i niezwykle wręcz elegancki. Swoją naturalnością zachwyca od pokoleń. Pięknie prezentuje się zarówno we wnętrzach klasycznych, jak i w tych nowoczesnych, podkreślając charakter każdego z nich jedynie formą i stylem wykończenia. My oferujemy oprawy drewniane fornirowane lub malowane lakierami. W tym drugim wypadku wykończenie może być matowe bądź błyszczące - o wysokim połysku. Szeroki wybór kształtów sprawia, że każdy odnajdzie wśród nich model dla siebie - niezależnie od tego, czy jest zwolennikiem bardziej czy mniej konwencjonalnych rozwiązań.

## Wooden lamps

### Timeless classics.

Wood is an incredibly versatile and extremely elegant material. Its natural quality delights for generations. It presents beautifully in both classic and modern interiors, emphasizing the characteristic of each with just its form and style of finish. We offer luminaries made of wood veneer or painted with lacqueres. In the latter case, the finish may be matte or high gloss. Thanks to a wide range of shapes, everyone can find a model to suit each individual need - regardless of whether he prefers more, or less, conventional solutions.

## Oprawy z żywicy poliestrowej

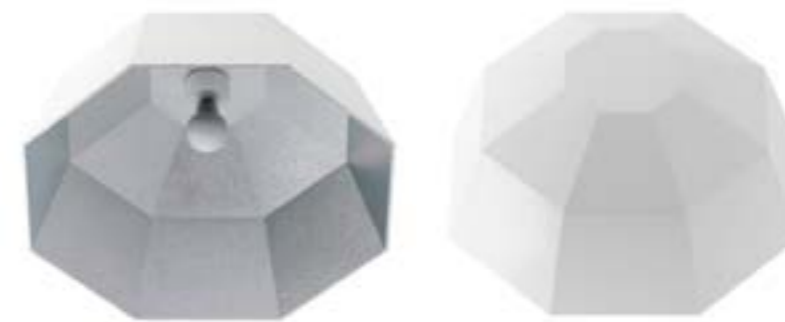

Nowoczesny szyk i nieszablonowość.

Wyjątkowo wytrzymałe, nowoczesnie zaprojektowane, łatwe do utrzymania w czystości. To właśnie cechy naszych opraw oświetleniowych wykonanych z żywicy poliestrowej. Wspaniale wyglądają w pomieszczeniach, w których minimalistyczny styl przeplata się z dbałością o wszelkie, najdrobniejsze nawet detale. Oprawy te malowane są po stronie zewnętrznej farbami o wysokim połysku, wewnątrz natomiast pokrywamy je farbami metalicznymi. Połączenie to jest niezwykle efektowne, co doceniają przede wszystkim ci, którzy lubią odejść czasem od klasycznych sprawdzonych rozwiązań.

## Lamps made of polyester resin

Modern chic and unique nature.

Extremely durable with a modern design and easy to keep clean. These are the features of our polyester resin luminaires. They look great in rooms where a minimalistic style is interwoven into even the tiniest details. These luminaires are painted with a high gloss paint on the exterior, while the interior is covered with metallic colours. This combination is extremely eye catching, and is primarily appreciated by those who like to sometimes step away from classic and well-known solutions.

## Oprawy oświetleniowe loftowe

Wielkomiejski styl, industrialny charakter.

Absolutnym hitem ostatnich lat jest industrialny styl wykończenia wnętrz. Szczególnie dobrze odnajduje się on w przestronnych, loftowych mieszkaniach. My postanowiliśmy wyjść naprzeciw temu coraz bardziej popularnemu trendowi, tworząc kolekcję lamp, które w fantastyczny sposób dopełniają wielkomiejski wystrój danej przestrzeni i podkreślają jej niebanalny charakter. Dzięki naszym lampom loftowym zachowany zostaje surowy styl wnętrza, jednocześnie nie wykluczając wrażenia przytulności, które regulować można wyborem konkretnej oprawy oświetleniowej.

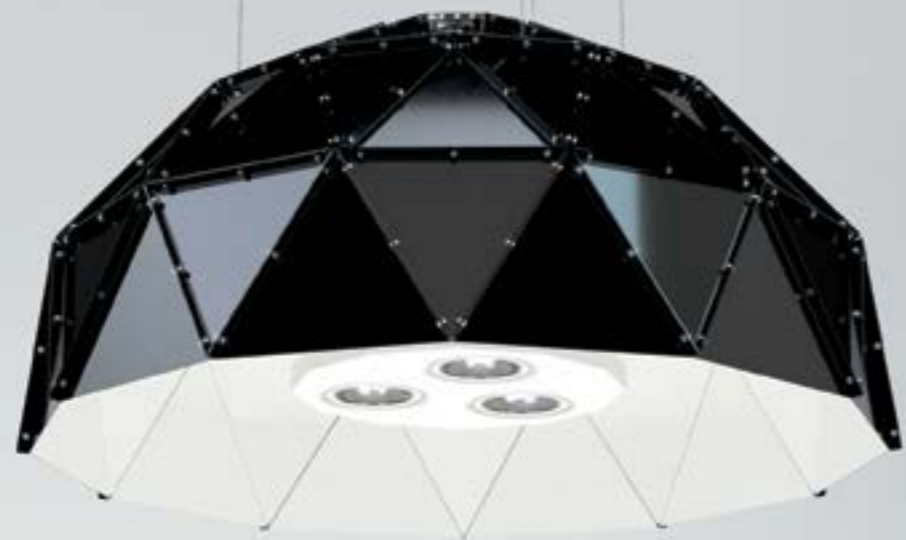

## Loft lamps

Urban style, industrial character.

An absolute highlight of recent years is the rise of industrial style interiors, especially well suited for spacious lofts. We decided to meet this increasingly popular trend by creating a collection of lamps which fit urban design spaces fantastically while still emphasizing their original character. Thanks to our loft lamp, the raw style of the interior is maintained without losing a sense of coziness, which can be adjusted by choosing certain luminaires.

## Oprawy z metalu

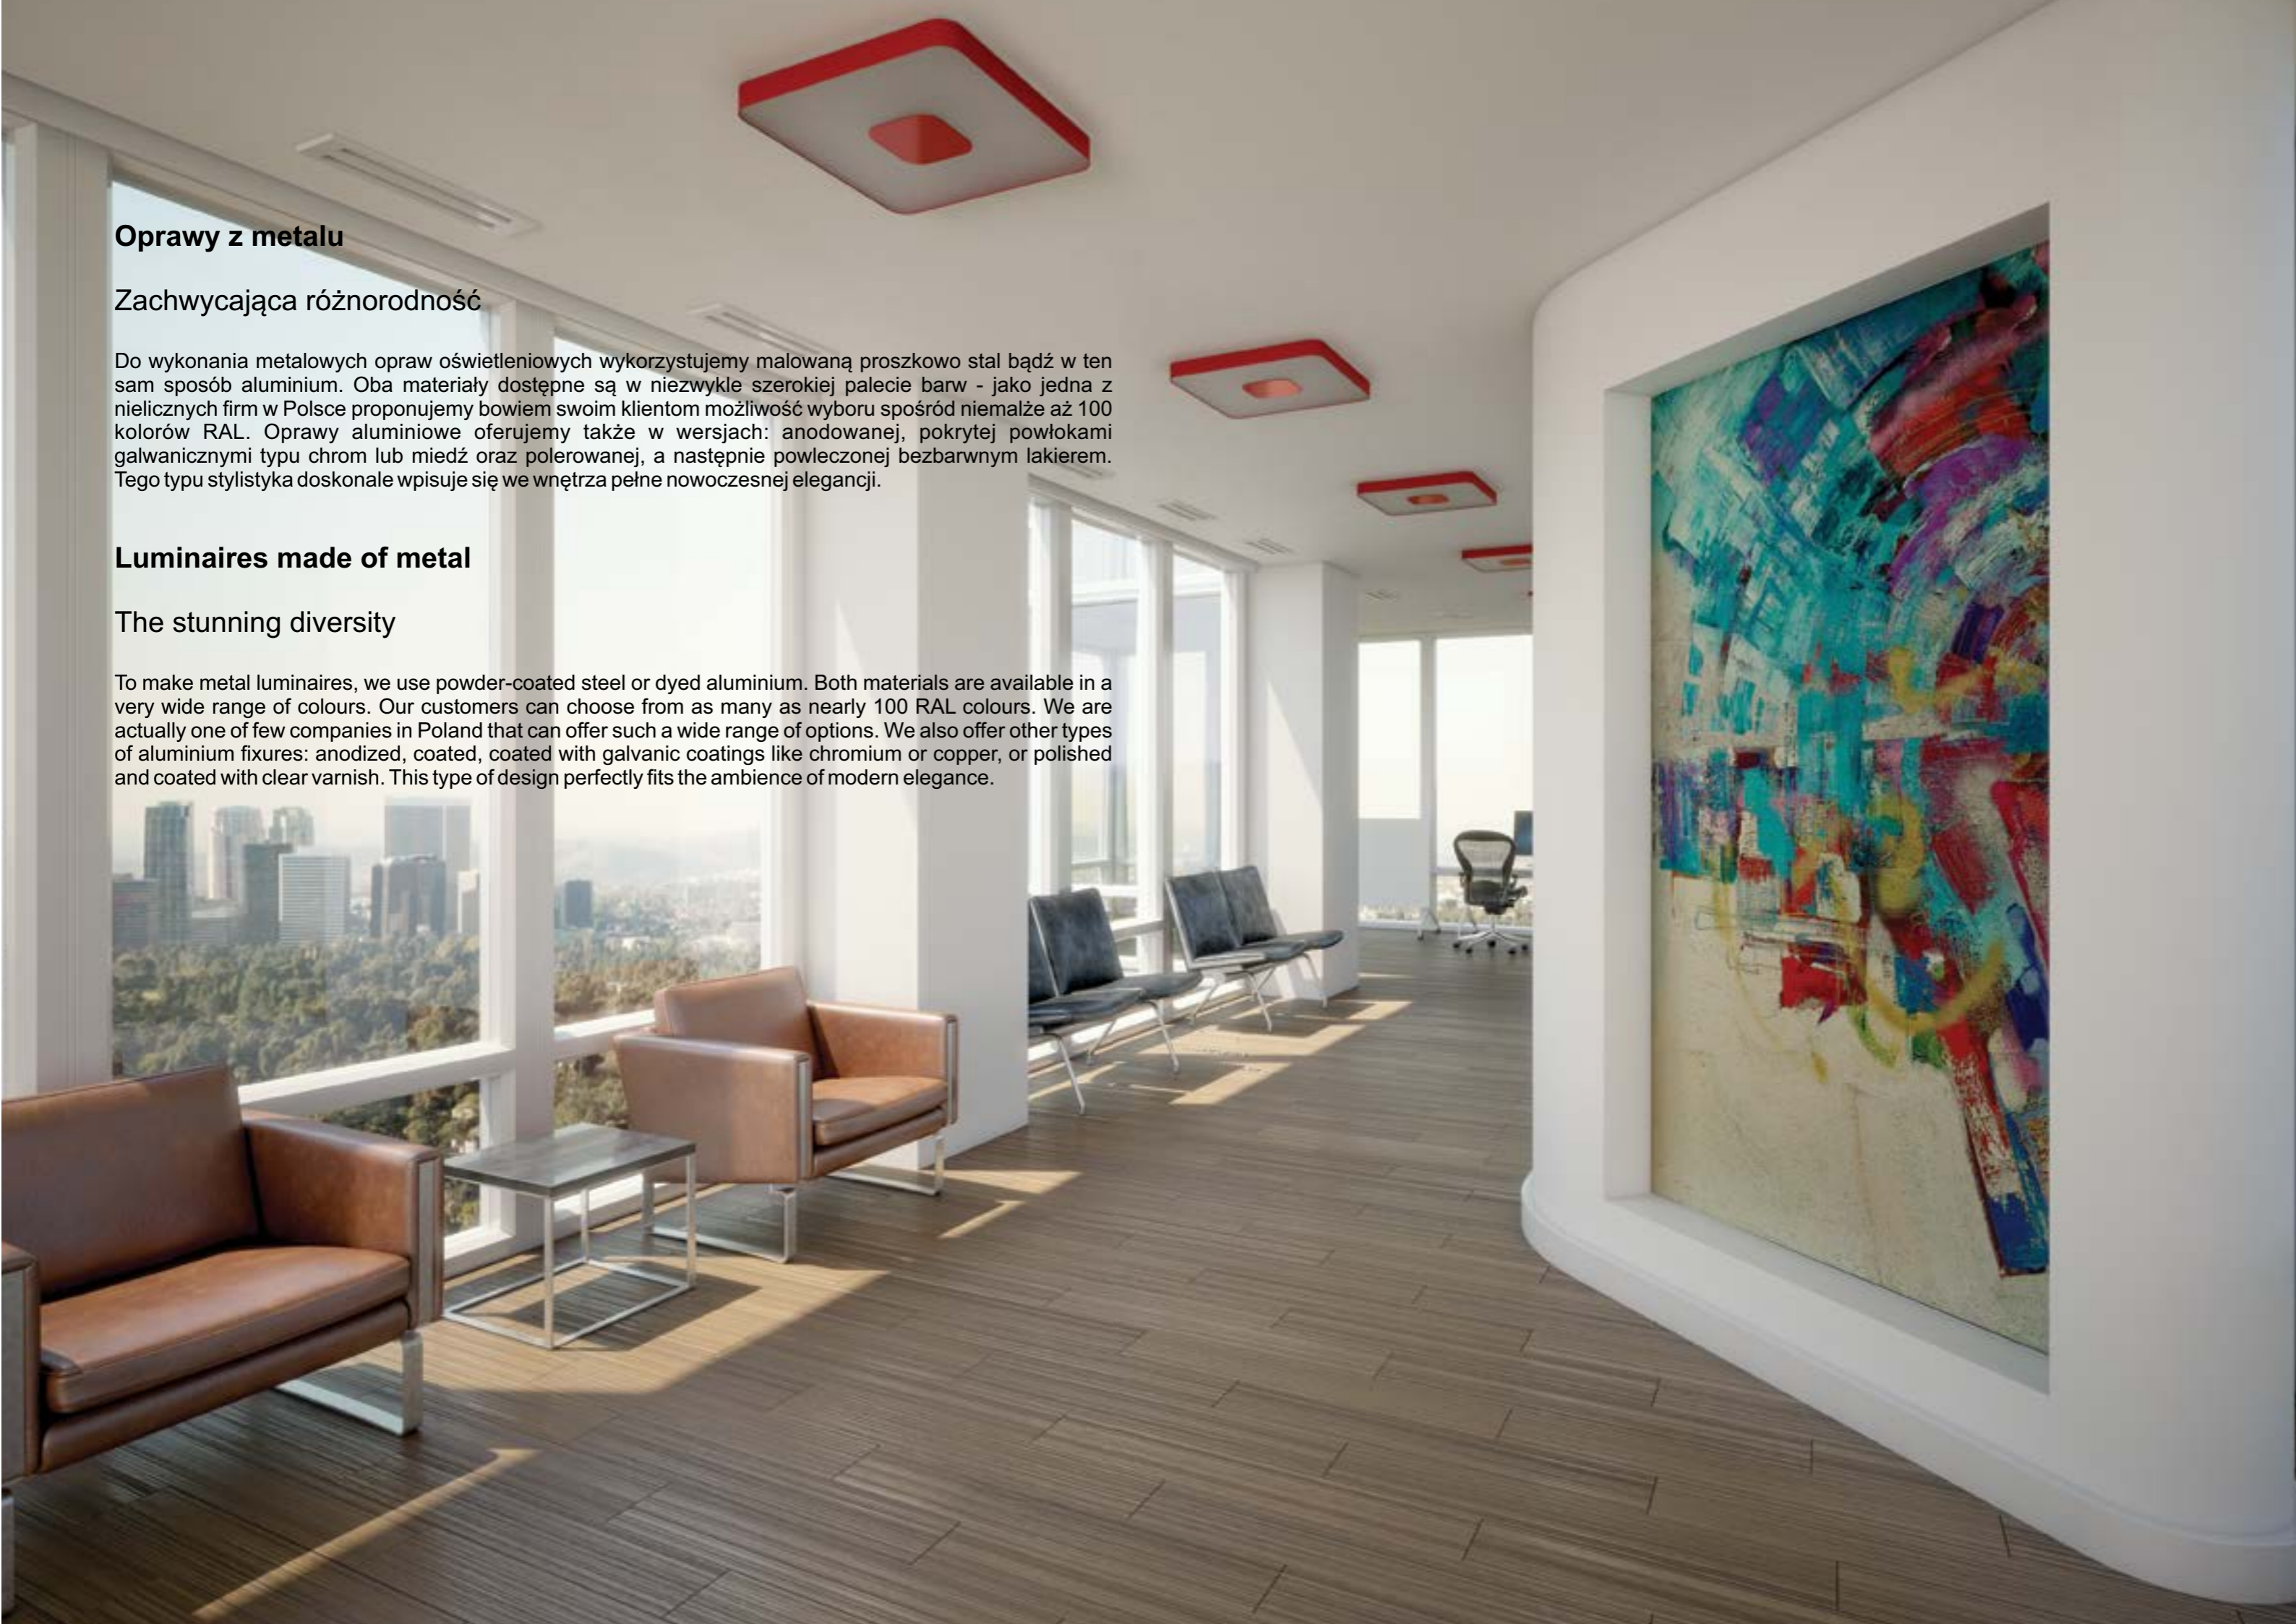

### Zachwycająca różnorodność

Do wykonania metalowych opraw oświetleniowych wykorzystujemy malowaną proszkowo stal bądź w ten sam sposób aluminium. Oba materiały dostępne są w niezwykle szerokiej palecie barw - jako jedna z nielicznych firm w Polsce proponujemy bowiem swoim klientom możliwość wyboru spośród niemalże aż 100 kolorów RAL. Oprawy aluminiowe oferujemy także w wersjach: anodowanej, pokrytej powłokami galwanicznymi typu chrom lub miedź oraz polerowanej, a następnie powleczonej bezbarwnym lakierem. Tego typu stylistyka doskonale wpisuje się we wnętrza pełne nowoczesnej elegancji.

## Luminaires made of metal

### The stunning diversity

To make metal luminaires, we use powder-coated steel or dyed aluminium. Both materials are available in a very wide range of colours. Our customers can choose from as many as nearly 100 RAL colours. We are actually one of few companies in Poland that can offer such a wide range of options. We also offer other types of aluminium fixtures: anodized, coated, coated with galvanic coatings like chromium or copper, or polished and coated with clear varnish. This type of design perfectly fits the ambience of modern elegance.

## Oprawy z betonu architektonicznego

Lekkość, która zaskakuje.

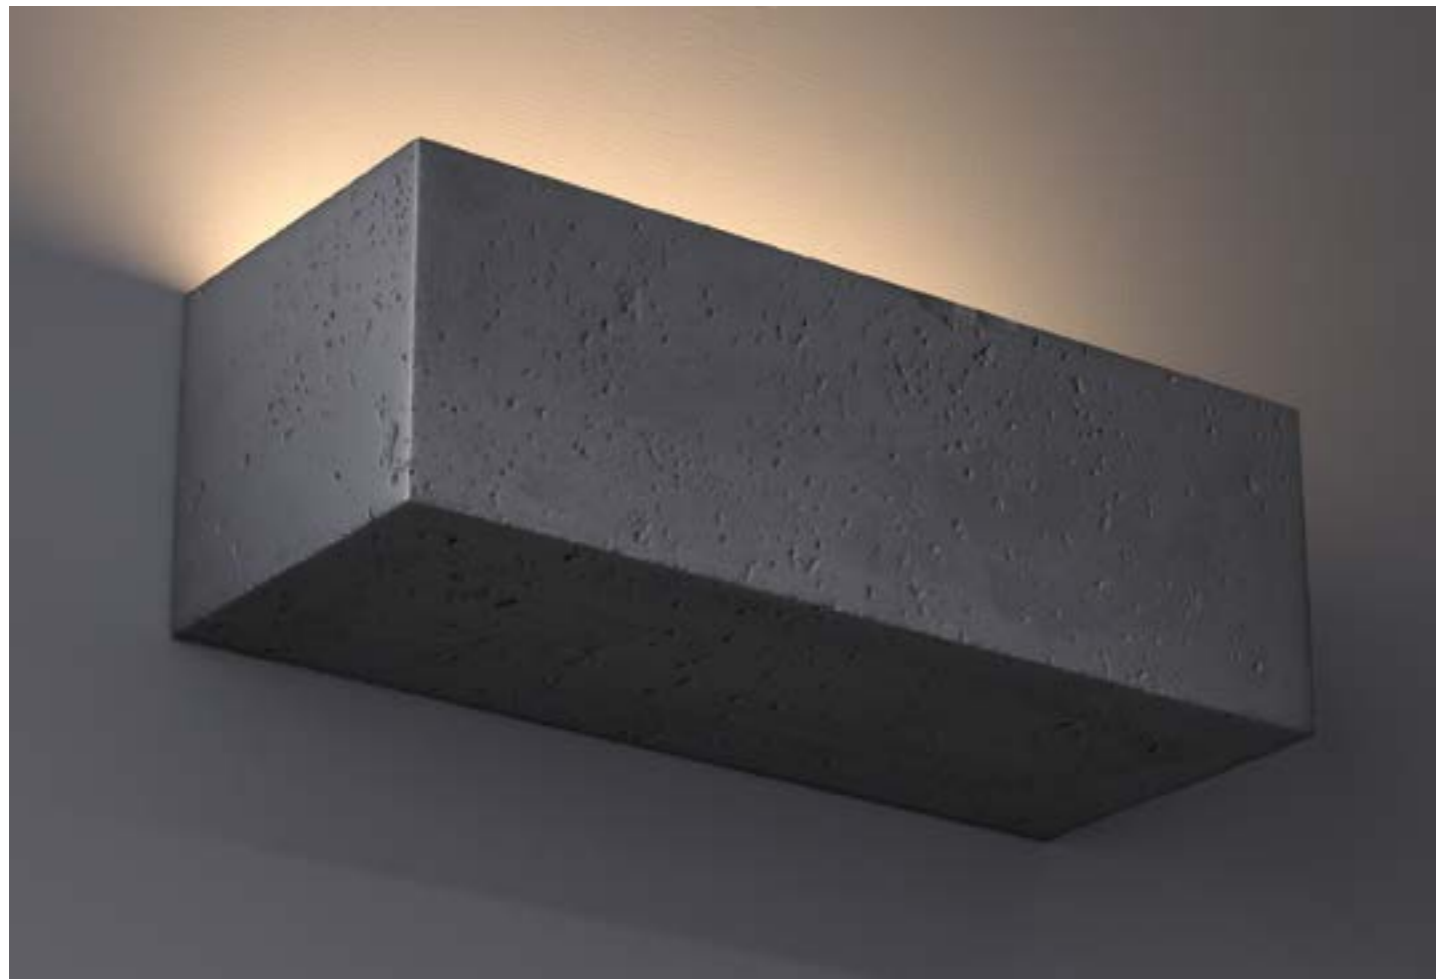

Efektorem ciągłego dążenia ku innowacyjności jest stworzenie przez nas pilnie strzeżonej mieszanki o nazwie Cementocardona. Jej wygląd zewnętrzny i faktura do złudzenia przypominają tradycyjny beton, lecz jest od niego aż o 50% lżejsza. Osiągnięcie takiego wyniku pozwoliło nam na szerokie wykorzystanie tego materiału w produkcji oryginalnych opraw oświetleniowych. Zaprojektowane przez nas formy doskonale współgrają z nieco surowym charakterem Cementocardony - są proste, minimalistyczne oraz dobrze znane i cenione przez użytkowników. Świetnie sprawdzają się we wnętrzach o industrialnym charakterze.

## Luminaires made architectural concrete

The lightness that surprises.

The result of constantly striving towards innovation is the result of our closely guarded mix, called Cementocardona. Its appearance and texture are confusingly similar to those of traditional concrete, but it is up to 50% lighter. Achieving such a result has allowed us the widespread use of this material in the production of our original lighting fixtures. Shapes designed by us perfectly harmonize with the slightly harsh characteristics of Cementocardona - they are simple, minimalist, well-known, and appreciated by users. Very well suited for industrial interiors.

## Oprawy z masy gipsowej

### Kształty, które intrygują

Bryły opraw wykonanych ze wzmocnionej utwardzaczami mieszanki mas gipsowych potrafią zachwycić i... prawdziwie zaintrygować. Niezależnie od tego czy ich formy są bardziej wymyślne czy też pozbawione wszelkich zdobień - w żadnym wypadku nie można określić ich mianem przeciętnych. ponadczasowy urok lamp gipsowych tkwi w ich delikatności i funkcjonalności, a to cechy, które od lat zachwycają wszystkich lubiących otaczać się przedmiotami pięknymi i użytecznymi zarazem. Oprawy te dostępne są w neutralnym, białym kolorze, co pozwala na dopasowanie ich do wielu przestrzeni mieszkalnych i nie tylko.

## Plaster lamps

### Shapes that intrigue

Lamp of luminaires made from a mixture of gypsum masses reinforced with hardeners can enchant and... truly intrigue. Regardless of whether their forms are more contrived or devoid of any ornamentation- one cannot describe them as merely „average”. The timeless appeal of plaster lamps lies in their delicacy and functionality. These are qualities that can delight anyone who likes to be surrounded by both beautiful and useful object, for many years to come. These luminaires are available in a neutral white colour, which allows them to fit many residential spaces, and much more...

## Oprawy ceramiczne

Znany materiał niespotykane kształty.

Oprawy oświetleniowe wykonane z wypalanej w piecach wysokiej jakości masy ceramicznej łączą w sobie piękno tradycyjnego materiału z formami, które często wykraczają daleko poza klasykę. Dodatkowym atutem naszych lamp ceramicznych jest możliwość późniejszego ich pomalowania, gdyż materiał ten jest niezwykle chłonny. Można więc zdecydować się na wykończenie ich w kolorze ściany bądź też zastosowanie barwy całkowicie kontrastującej z otoczeniem. nasze oprawy dowodzą, że ceramikę zastosować można nie tylko w pomieszczeniach urządzonych tradycyjnie, lecz również w tych bardziej nowoczesnych.

## Ceramic lamps

Well-known material, unusual shapes.

Luminaires made of oven-baked, high quality ceramics combine the beauty of traditional materials with what of forms which often extend far beyond the classics. Another advantage of our ceramic lamps is the ability to paint them at a later time, because the material is extremely absorbent. One can choose to cover them with the colour of the walls or a colour which contrasts with the surrounding environment. Our luminaires show that ceramics can be used not only in traditionally decorated interiors, but also in more modern ones.
