# Subtle boho style

DISCOVER MARKSLÖJD LAMPS INSPIRED BY THE WEALTH OF NATURE

The new products from the Swedish brand Markslöjd include many lamps made of natural materials, including: bamboo tree, rattan or banana fiber, which are a perfect complement to boho-style interior design.

The boho style was born at the end of the 18th century in France and was initiated by avant-garde artists who began to use natural materials, various fabrics and exotic patterns not only in fashion, but also in interior design.

The boho style in space arrangement flourished in the 1960s. Since then, the idea of cozy interiors, decorated with comfortable furniture, plant decorations, handmade ornaments and colorful carpets, has been gaining popularity all the time, and currently it is one of the hottest interior design trends.

## Natural materials

Banana fiber, jute and bamboo wood are materials that perfectly fit the aesthetics of the boho style. The lampshades of Styrka, Strati, Capello and Rayo hanging lamps were made of them.

Just a glance is enough to admit that they will fit very well into arrangements where coziness and visual lightness are important. Especially that mild shades of brown and beige are the natural color palette of the boho style.

Styrka 108661

Design by  
Anja & Filippa

Strati 108675

Capello 108673

Rayo 108677

Montagna 108683

Costero 108694

Montagna and Costero table lamps will also be an ingenious complement to the arrangement of such interiors. In addition to jute lampshades, attention is also drawn to their bases, made of concrete and glass, which will become even more attractive among other boho decorations.

The above-mentioned new products from Markslöjd are just a few lamps for boho-style interiors. You will find more inspiration on the following pages of the catalogue.

## Anja & Filippa for Markslöjd

*Our project "Styrka" is about strength and its various guises. The creative strength, the strength that comes from family, and the strength of true love.*

*We want to celebrate the female strength, the force within every woman. The shape of the lamp represents the female force, blossoming to a powerful form while spreading light to its surroundings.*

## HOW TO USE AUGMENTED REALITY (AR) FILES?

1

Use the product's QR codes to download AR files to your iOS smartphone.

2

Click on the file you want to open.

The selected file will open automatically by using default camera application.

3

Aim the camera lens at the place where you want to try on the lamp.

After opening the file, click on the lamp graphics and point the camera lens on the floor in the interior.

You can move, scale and rotate the virtual lamp on the smartphone screen. To keep the visualization for the future, just take a picture.

# Rechargeable Lamps

Enjoy the freedom of our new rechargeable and portable table lamps that are easy to bring from room to room. The lamps are battery-driven and can be used cordless up to 8 hours. The built-in battery is charged with USB-C, one USB-C cable for charging included.

Perfect to bring outdoors during warm summer evenings, they're rated IP44 and adapted for outdoor use. They also work well as a portable night lamp, or to be placed in the middle of the dining table, or shelves when you want to minimize cable clutter. The lamps are dimmable and spread a comfortable mood light.

Available in different variants and colors.
